Personal Profile

I am motivated, ambitious Creative Digital Media Student who is experienced in many media areas, currently looking for full-time opportunities in the IT or media fields. I have worked on many design projects, and am proficient in design and coding, teamwork and collaboration. I want to apply and expand my skills in active, fast-paced environment, ideally start doing an internship or get in a creative web design team. I am very enthusiastic, flexible, multifarious, looking forward to the new experience and growing into a capable, innovative and senior IT professional.

Projects & Portfolio

Short Film Production - Created and edited a short documentary film as part of a group project, also acquired experience by doing solo short narrative movies

Figma UI/UX Design - Developed wireframes and interactive prototypes for mobile and desktop

Web Development - Designed and coded responsive websites using HTML, CSS, JavaScript, React, and Bootstrap, created 5 full web site projects

Magazine Layout & Book Covers - Designed print-ready publications using InDesign and Illustrator including magazine design layout and book cover
